

Play Equipment Quotations

19 January 2026: Under the Freedom of Information Act can you provide the numbers of grants and quotes that were applied for?

Parish Council Response: Regarding your Freedom of Information requests dated 19 January 2026, we provide the following information.

(This request is in connection with play equipment for the Recreation Field.)

You provided us with an excerpt from the minutes of the Parish Council Meeting held on 21 January 2025 (not 25 January as per your letter). The excerpt states that "*Cllr Tidman expressed that she would like to get grants for new play area equipment ...*", and this was entirely accurate. Once we have arrived at the appropriate juncture in the process, if we are going ahead with the project, the Council will apply for grants.

As regards quotes, we have received two. These two quotes were, as articulated at the Parish Council Meeting on 13 January 2026, for various pieces of commonly used play equipment. The idea was to check the market to see what is out there and gain an indicative idea of costs so that we can assess the feasibility of moving forward with the project. Now that that has been carried out, as was always going to be the case, we organised, and have held, three consultations sessions at the Community Building to gauge public opinion.
